CAREER OBJECTIVE

I am always curious about things and enjoy learning. I like to solve problems and fix errors. I am detail oriented and I keep my goals and tasks organised to maintain productivity. I believe that the skills that I have attained from the dynamic environment and competitive university life define me and I am looking forward to implementing and polishing them in any opportunity that I receive.

PROJECTS AND EXPERIENCES

SOFTWARE DEVELOPMENT GROUP PROJECT

LETTER BY LETTER

- Due to lack of pen and paper writing in the modern world kids don't learn to write well according to our research We found a solution where we bring in technology and make sure kids learn to write using a mobile app powered by machine learning
- We developed a mobile application which ensures kids to write letters on a paper and then takes a snap of the letter written using machine learning we give feedback to the kids

OBJECT ORIENTED PROJECT

F1 RACE MANAGER

- Developed a Java program that uses OOP concepts, allowing the user to edit and adjust different capabilities in a FORMULA 1 MANAGER program where the user operates as a team MANAGER.

OTHER PROJECTS

- Python program which predicts student outcome based on grades
- Sit-com based website called Sitecom which has details about sit-coms few products and other pages.
- Java program which assigns peoples to booths according to requested vaccine.
- Portfolio website about games vs movies using HTML5 and CSS3
- Basic E-commerce based on front-end only website selling shoes using Jquery with search function
